

# Heriot Covid-19 Volunteers

## Working together to support Heriot

Hi there, neighbour. Are you struggling, a bit lonely or unable to leave your home because of Covid 19/Coronavirus? We're here for you.

We are a group of local residents who have come together during a time where some people are finding it hard to access the help they need. We would like to support the community that we live in and ensure that nobody is left isolated or without support.

We are your local neighbours and not a professional body. We can only offer help within reason, and in ways we can also stay safe. If you need medical advice, use the NHS 111 online coronavirus service at [111.nhs.uk/covid-19](https://111.nhs.uk/covid-19), or if you have no internet access, call NHS 111 from your phone. In a medical emergency, dial 999.

### NEED SUPPORT?

If you would like to speak to us, or want to ask for help, please email, phone or text one of these neighbour volunteers:

### HOW CAN WE HELP?

**ARRANGING  
DELIVERIES**

**PICKING UP  
SHOPPING &  
MEDICATION**

**A FRIENDLY  
PHONE CALL**

**POSTING  
MAIL**

**URGENT  
SUPPLIES**

**HELP TOPPING  
UP ELECTRIC  
OR GAS KEY**

On the back of this leaflet is some advice to help keep you safe. COVID-19 (the new novel coronavirus) is a new illness that can affect your lungs and airways. Let's work to prevent the spread.

## STAY AT HOME IF YOU HAVE CORONAVIRUS SYMPTOMS

Stay at home for 7 days if you have:

- A high temperature: You feel hot to touch on your chest or back.
- A new, continuous cough – this means you've started coughing repeatedly.
- If someone in your home has a persistent cough or fever. *Everyone* living there must stay at home for *14 days*.

DO NOT go to a GP surgery, pharmacy or hospital.

This is the government advice at the time of printing, but may be subject to change. Read the latest NHS advice about staying at home: [nhs.uk/conditions/coronavirus-covid-19/self-isolation-advice](https://www.nhs.uk/conditions/coronavirus-covid-19/self-isolation-advice)

## HOW TO AVOID CATCHING OR SPREADING CORONAVIRUS

- Stay home where possible. Stop non-essential contact with others and non-essential travel.
- Wash your hands with soap and water often, for at least 20 seconds.
- Avoid touching common public surfaces such as metal or plastic.
- Use 60% alc. hand sanitiser gel if soap and water are unavailable
- Cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze.
- Put used tissues in the bin immediately and wash your hands afterwards.

- Try to avoid close contact with people who are unwell.
- Do not touch your eyes, nose or mouth if your hands are not clean.

## USE THE NHS 111 ONLINE CORONAVIRUS SERVICE IF:

- You feel you cannot cope with your symptoms at home.
- Your condition gets worse.
- Your symptoms do not get better after 7 days.
- Only call 111 if you cannot get help online.

## HOW CORONAVIRUS IS SPREAD?

Because it's a new illness, we do not know exactly how coronavirus spreads from person to person.

Similar viruses are spread in cough droplets.

It's very unlikely it can be spread through things like packages or food.

## TREATMENT FOR CORONAVIRUS

There is currently no specific treatment for coronavirus. Treatments are being tested. The earliest a vaccine is likely to be available is 2021.

Use Paracetamol to help with lowering a fever.

Antibiotics do not help, as they do not work against viruses.

## SHOUT CRISIS TEXT LINE

**\*NOT FOR MEDICAL ADVICE\***

For anyone struggling with their mental health in isolation or suffering from anxiety or worry. Please text SHOUT to 85258.

Shout offer free 24/7 textline support for those feeling in crisis.

**Even if you're self-isolating, you're not alone.**

We washed our hands before delivering these.
